Dear Parents,

The Central Board of Secondary Education has been taking many initiatives to provide interactive, participatory, hands-on, innovative and creative learning experiences to students studying in its schools. One such initiative refers to the organization of exhibitions every year. The activity aims at providing a common platform to schools, teachers and students to give shape to their innovate ideas and learn from each other's experiences and also in promoting an interest in learning and providing exploratory experiences.

Considering these, Jeddah Ahdab International school has decided to organize a **STEAM Educational Exhibition in the month of September 2024**. The students can put up a still model or a working model from any subject (Maths, Science, Social Studies , Computer Science etc.) to explain a concept, principle or a process.

We hope you will encourage your child to participate in this special activity. Best three exhibits from each class / category will be awarded prizes and certificates.

Regards,

Academic Head

Anvar Shaja Vengasseeri

Principal

Abdullah S Al Nahdi
